

New Protocol for Indoor HITT Factory Classes

We care about our members safety & would like to share how we are taking steps to make your experience in our gym above your expectations. We have a new protocol on how we are entering/exiting building, cleanliness & organization.

1. Schedule class through the Club Systems Website or App. Click this link to learn how to register: <https://drive.google.com/file/d/1MbdE-CWutss6PBwwSjWLWYFLkr2i91Tx/view?usp=sharing>
2. Only bring in your boxing gloves, your own sweat towel ,water bottle and keys. Keep all your belongings with you at all time.
3. You must wash your hands prior to entering our faculty with our portable hand wash station.
4. You will enter the building from our front entrance door. Our double doors will only be used for exit only.
5. Check in with the front desk and wait to be assigned a station.
6. Go to your station and take the furthest of three within your station.
7. Listen to the Coach for instructions.
8. After completing 2 rounds you will grab a clean micro fiber towel to clean off and rack your equipment. Don't touch the equipment with your hands once it's clean. Place the dirty towel into the towel bin located at your station.
9. Rotate to your next station as your instructed to.
10. Once class is over you will be dismissed by stations one at a time keeping the required 6 feet social distancing.
11. We understand this is a lot of change and are trying to make it as easy for you as possible without sacrificing your safety. If we all follow these procedures we will be successful in preventing covid-19 at our facility. Remember to make this your time to take care of yourself mentally & physically.
