

Can FMD Kickstart a Heart-Healthy Diet?

Join us for a **FREE Webinar**
on L-Nutra's latest innovation:
ProLon® Professional

Discover What Makes
ProLon Professional Unique

- ✓ Only 5 days each month of the 5-day Fasting Mimicking Diet® (FMD) provides many of the benefits of an every day heart-healthy diet when done over a few months
- ✓ Cellular rejuvenation that can only come from a prolonged fast like the FMD
- ✓ Weight loss* and visceral fat reduction while maintaining lean body mass

**In a clinical study, ProLon has shown to help patients maintain a healthy weight, and metabolic balance over four cycles.*

SPEAKERS

James Kelley, MD, MBA
Medical Science Liaison

James brings both clinical and business experience to L-Nutra. His background is in the development of early stage medical and biotechnology, in addition to working with physicians, nurses and other healthcare professionals.

James completed his M.D. at The Ohio State University, and was the inaugural Research Fellow at the Ohio Health Research and Innovation Institute. He finished his MBA at the University of Southern California Marshall School of Business. He has worked with the USC Alfred Mann Institute for Biomedical Engineering, the Lloyd Grief Center for Entrepreneurial Studies, and the Stevens Institute of Technology. He holds a Bachelor's degree in Cell Biology from the University of Virginia, and completed his Neuroscience Masters coursework at Miami University.

Prior to joining the L-Nutra team, he was the head of Inventor Services at The Innovation Institute, a partnership with the Cleveland Clinic Innovations group focused on developing and commercializing new and innovative healthcare solutions.
